

presentation

Conference official languages are Croatian and English (simultaneous translation).

Paper presentations will be held in sessions by representatives.

registration fee

Conference fees: **150,00 EURO**

Fee reduction of 10% is for authors and/or group of participants of the same company.

Registration fee should be paid to account ZBZ d.d.,

Swift ZABA HR 2X 25002803261654

Please, do not forget to add your name, address and purpose of payment, namely: **Fee for MATEST '99**.

accommodation

HOTEL 'CROATIA'

CAVTAT

phone: ++ 385 (0)20 478 055, 478 022

fax: ++ 385 (0)20 478 213

http://dubrovnik.laus.hr/congress/html/hotel_croatia.html

Director: Mr. Frano TOMŠIĆ

Contact person: Mrs. Marija ŠEBALJ

Accommodation per person / day:

	day/break.	half pension	full pension
twin room	50,00	57,00	77,00 DM
single room	78,00	85,00	105,00 DM
tourist tax	5,50 kn per day		

For accommodation please contact hotel directly with remark:
MATEST '99.

Trip by plane is organized as follows:

- Departure from Zagreb 22.09. - OU 654 at 14¹⁰ OU 664 at 21¹⁰
- Departure from Čilipi 26.09. - OU 661 at 06⁵⁰
- price for return ticket 649,00 kn
- transfer from airport to hotel 5,50 DM/person

Tickets are available in offices of CROATIA AIRLINES marking:
MATEST '99.

Croatian Society of
Non-Destructive Testing

organizes

MATEST '99

Advanced NDT techniques

Cavtat, 23 and 24 September 1999.

Honourable coorganizers:

Deutsche Gesellschaft für
Zerstörungsfreie Prüfung E.V.

AIPnD

Associazione Italiana
Prove non Distruttive
Monitoraggio Diagnostica

Second announcement

programme committee

Vjera Krstelj (HR) - president

Dario Almesberger (HR/I) Vedran Mudronja (HR)
Marijan Balenović (HR) Giuseppe Nardoni (I)
Duško Čorak (HR) Krunoslav Peršić (BiH)
Gerd Dobmann (D) Igor Rožanić (HR)
Nenad Gucunski (HR/USA) Dierk Schnitger (D)
Zvonimir Janković (HR) Srećko Švaić (HR)
Reiner Link (D) Ante Šimunović (HR)
Ana Lypolt (HR) Nenad Vulić (HR)

organizing committee

Miro Džapo (HR), Vladimir Zado (HR) - presidents

Darko Barilar (HR) Dunja Mikulić (HR)
Marin Gracin (HR) Miroslav Omelić (HR)
Đurđica Hodžajev (HR) Nikica Pancirov (HR)
Dragica Krstić (HR) Josip Stepanić (HR)
Damir Ličko (HR) Dinko Tvrtković (HR)
Damir Markučić (HR) Domagoj Zimić (HR)

subjects

- ↳ Research and development
- ↳ Education
- ↳ Standards - Certification and qualification
- ↳ Industrial sector
- ↳ Art
- ↳ Environment protection
- ↳ Land mines detection

invited lecturers

- dr. sc. J. Topić: Uspostava sustava za potvrđivanje i ovlašćivanje u Republici Hrvatskoj / *System establishment for certification and accreditation in the Republic of Croatia*
- dr. sc. D. Goršeta: Sustav humanitarnog razminiranja u Republici Hrvatskoj / *System of antipersonnel land mine detection in the Republic of Croatia*

preliminary list of papers

1. D. Barilar (HR): Ispitivanje rukavca (instaliranih bez zavara) korištenjem metode vrtložnih struja / *Examination of weldless sleeves by using eddy current method*
2. D. Sekulić, D. Bjegović, D. Mikulić (HR): Nerazorne metode određivanja korozije armaturnog čelika / *Nondestructive methods for corrosion determination of reinforcement steel*
3. D. Almesberger, M. Tončić, A. Rizzo, L. Sartore (I): Nerazorna ispitivanja i monitrinig satnog tornja na Trgu sv. Marka u Veneciji
4. M. Cvitanović, A. Matoković, V. Mudronja (HR): Prednosti primjene faznih višekristalnih ultrazvučnih sondi kod ispitivanja komponenata reaktora / *Advantages by application of ultrasonic phased array technique for the inspection of reactor components*
5. A. Lypolt (HR): KBR - potreba, trošak ili dobitak / *NDT - necessity, cost or benefit*
6. Đ. Španiček, Z. Smočić Žerdik (HR): Primjena ultrazvuka za praćenje strukturnih promjena u poliamidu 6 / *The use of ultrasonic testing for determining structural changes in polyamide 6*
7. S. Mahović, D. Indof (HR): Povezivanje tvrtke kupcima / *Quality function deployment*
8. S. Švaić, I. Boras (HR): TKBR - Međusobni utjecaj grešaka ispod površine / *TNDT - mutual influence of the subsurface defects*
9. Z. Hell, S. Šimundić, Z. Bičanić, N. Knezović, Z. Ivanović Surjan, D. Gugić, N. Vulić, M. Andrijašević, G. Jelić (HR): Primjena polimernih materijala u pomorstvu / *The application of polymers in marine industries*
10. D. Krstić, Z. Schauperl, M. Jakšić (HR): Karakterizacija metalnih niti s crkvenog ruha iz 17. i 18. stoljeća
11. H. Bezljaj, V. Zado (HR): Osnove višekristalne fazne ultrazvučne tehnologije / *Basics of phased array technology*
12. D. Lisjak, D. Markučić (HR): Mogućnost primjene eksperntih sustava u nerazornim ispitivanjima / *The application of the expert system in nondestructive testing*
13. V. Krstelj, J. Stepanić (HR): Non destructive testing in antipersonnel landmine detection
14. D. Mađanović (HR): Pristup kontroli cjevovoda u rafineriji
15. N. Gucunski, S. Antoljak, A. Maher (USA): Finite element modeling of impact echo test on delaminated bridge decks
16. M. Grubić Sutara (HR): Tehnički odbor TO-135 Nerazorna ispitivanja / *Technical Committee TO-135 Nondestructive testing*
17. P. Pregowski, W. Swiderski (PL): Application of IR thermography for detection of the buried mines - prediction and procedures
18. H. Babahmetović, E. Kratina, M. Rimac (BiH): Prilog NDT analizi stanja materijala termoenergetskih postrojenja / *The supplement of NDT materials conditions of thermoenergetic components*
19. V. Rajčić, Lj. Herceg (HR): Prijedlog za objektivno klasificiranje drveta i lakše preuzimanje normi eurocode 5 / *One solution for objective wood grading and quick approach to eurocode 5*
20. K. Grilec, D. Prusac, Z. Schauperl (HR): Prevlake otporne na abrazijsko trošenje / *Abrasion resistance of surface layers*
21. D. Markučić, B. Runje (HR): Obnovljivost rezultata mjerjenja prigušenja ultrazvuka / *Reproducibility of ultrasonic attenuation measurement results*
22. I. Dukić, P. Dukić (SLO): Upotreba TOFD tehnike pri ispitivanju rotora s provrtom / *Use of TOFD technique for examination of rotor with hole*
23. Z. Bolanča, A. Hladnik, G. Perković (HR): Contact angle in the function of ecologically more appropriate wetting solution
24. G. Albertini, M. Rogante, S. Bertini, F. Rustichelli, P. Scrivani, V. Stanic (I): Neutron techniques in the service of industry
25. J. Rant, G. Riher, J. Stade (SLO): Photoluminescent imaging plates: a new imaging detector for radiography with X-rays, electrons and neutrons
26. S. Šimundić, Z. Hell (HR): Istraživanje i razvoj suvremenih znanstvenih metoda i tehnologija u pomorskoj brodogradnji / *Researching and implementation of modern scientific methods and technologies in marine shipbuilding*
27. D. Zvizdić, L. Grgec Bermanec (HR): Razvoj sustava za ispitivanje i umjeravanje mjerila tlaka / *Development of pressure sensor testing calibration system*
28. M. Jakopić (HR): Utvrđivanje balističke kvalitete cijevi topničkog oružja
29. D. Stanić (HR): Influence of fill factor on accuracy measurement of eddy current tube examination
30. P. Speier (D): Amplitudenbewertung bei der manuellen ultraschallprüfung
31. M. Halter, B. Lutz, E. Golz (D): Intergration of eddy-current testing into networked automatic manufacturing
32. Z. Baršić, V. Mudronja, B. Runje (HR): Usporedivost mjernih rezultata
33. J. Grum, B. Burger (SLO): Determination of radiation time for the given X-ray device and film
34. M. I. Valič, J. Stepišnik (SLO): An ultrasonic shear wave apparatus for non-destructive testing of cementitious materials
35. N. Šakić (HR): O pouzdanosti i vjerodostojnosti otkrivanja grešaka pri nerazornim ispitivanjima
36. S. Kralj, Z. Kožuh, B. Bauer (HR): Pogreške u laserski zavarenim spojevima Al i Al-slitina / *Faults in laser welded joints in Aluminium and Al-legures*
37. T. Vuherer (SLO): Evaluation of residual stresses for the derivation of the acceptance level for flaws in fusion welded joints
38. V. Gliha (SLO): HAZ fracture designing for the derivation of acceptance level for defects in fusion welds
39. J. Grum, B. Pečnik, D. Fefer (SLO): Detection and analysis of Barkhausen noise voltage signal with a various detection coils on steel with different degrees of cold deformation
